

**TWICKENHAM  
PLATING GROUP LTD**

## **ENVIRONMENTAL POLICY**

Twickenham Plating Group recognises its duty of care to the environment both globally and locally, and will comply with all current environmental regulations and legislation relating to the activities of the company.

It is the declared policy of Twickenham Plating Group to carry out all measures reasonably practicable to improve environmental performance. The objectives are, to wherever possible:

- Assess the environmental effects of the company's activities in providing surface engineering products and services to the telecommunications, aerospace and automotive industries, and ensure these activities have no undue environmental impact.
- Reduce the amount of waste produced.
- Reduce the consumption of natural resources and recycle materials where appropriate.
- Progressively implement the best available technique (BAT) in all company environment matters.
- Minimise the environmental impact of company transport activities.
- Minimise, and where possible eliminate, any risk to employees and members of the public from processes and activities associated with the company.

The company will foster environmental awareness and understanding in all employees, suppliers, customers and the public. Where practicable, the company will provide information and assistance to customers on environmental issues arising from its services. Twickenham Plating Group will make this policy and its objectives available to the public.
